

Red Feathers Start Flying In Y-12 As Chest Drive Starts; Carbide Gives \$6,000 To Help Worthy Agencies In Ridge

Red feathers started flying all around Y-12 this week—the red feather that signified that its proud wearer had contributed to the 1951 Oak Ridge Community Chest campaign for funds.

Y-12ers and other Oak Ridgers are being asked to contribute \$62,000 for the operation of 14 red feather agencies sponsored by the Community Chest. Most of them are, of course, for the betterment of living right here in Oak Ridge—but all are worthy of support by generous employees in Y-12. The needs of all these agencies have been outlined by Chest authorities and are down in black and white for inspection by contributors.

Carbide and Carbon Chemicals Company this week contributed \$6,000 to the Chest campaign, the check being turned over by Clark

E. Center, General Manager for Carbide units in Oak Ridge; to L. D. Berger, Jr., fund campaign chairman for the Chest.

Among the national agencies to be served by the national organization of the Community Chest this year are the United Community Defense Service, the American Relief for Korea, Service for the Armed Services and others. These are grouped in one bracket, the United Defense Fund, and of the \$62,000 sought in Oak Ridge only \$3,364 is allocated to this item—a small amount when the ultimate benefits are considered.

Most of the money sought for Oak Ridge agencies by the Community Chest will be dispensed for the aid of children of the community—its backbone and its future. Statistics on past perform-

ances of the agencies included show that the money has been wisely spent for the benefit of the greatest possible number of youngsters. Such assistance as dental care and assistance, treatment of children crippled with cerebral palsy and orthopedic handicaps is given by the Community Chest. Boy Scouts, Girl Scouts and Camp-fire Girls are included in the assistance given by the Chest, which also is sponsoring the program of school lunches and bus fare for youngsters whose parents cannot meet the financial demands.

Further extending its arm of service the Community Chest plans to aid Oak Ridge residents obtain hospital service away from the area when such service cannot be given by the Oak Ridge Hos-

New Hospital Plan Enrollment Pushed In Y-12

New Company Provides Coverage; Benefits Are Practically The Same

Enrollment of Y-12ers in the new hospitalization and surgical benefit plan being offered by the Company, effective October 1, is being carried on throughout the plant area this week. The new enrollment is being made under the recently enacted agreement by Carbide with the Connecticut General Life Insurance Co., this company replacing the Washington National Insurance Co., which has notified the Company that it will not renew its present contract.

Every effort is being made by department and divisional representatives to reach all Y-12ers available during this week to speed the enrollment. A total of 75 per cent of eligible employees must enroll in the plan before it becomes effective. Y-12ers desiring to participate in the new hospitalization benefit insurance are urged to sign the enrollment cards as soon as possible.

Benefits Practically Same

Practically the same benefits offered by the Washington National Insurance Co. will be provided under the new agreement with the Connecticut General Life Insurance Co. They include:

1. Hospital benefits of \$7 per day up to 70 days.
2. Miscellaneous hospital expenditures up to \$70.
3. Medical expenses of \$3 per day in hospital.
4. Liberal surgical fee benefits, the same as the present schedule approved by the Tennessee State Medical Association.

Maternity Benefits Can Continue

Y-12ers who are eligible for maternity benefits under the present agreement with Washington National Insurance Co. will have those benefits continued without a break, as the Connecticut General coverage will take up where the Washington National agreement leaves off. For employees and dependents enrolling later a waiting period of nine months will be required after date of enrollment before such benefits start.

Under the new agreement, as in the present, the Company will pay about one-half of the gross cost of the plan, the employee bearing the other half.

The new rates for employee coverage only will be 89 cents per month and \$3.20 monthly for employee and family coverage.

Participation Entirely Voluntary

Participation of Y-12ers in the hospitalization and surgical benefit plan is entirely voluntary. All present employees are eligible to

New Document Plan Strengthens Security

'Confidential' Matter Description Is Changed

A revised procedure of handling classified documents to strengthen and simplify security observance through the three Carbide units in Oak Ridge has been adopted and distributed to employees handling such information.

Under the new procedure it will no longer be necessary to document matters classified "confidential."

New Interpretation Placed

In the future the classification "confidential" shall be interpreted to include "that classification applicable to restricted data of minimum importance such as fragmentary data or general information insufficient to an understanding of a critical process which of itself does not divulge production information."

When a document is prepared that is considered worthy of documentation and it is necessary that accountability be maintained, the classification of "secret" is to be applied.

Extreme Care Urged

Research and Development reports containing restricted data must, in all cases, be classified "secret" or higher, and consequently will carry documentation. Extreme care must be used so that no document is classified "confidential" which by reason of its contents would appear to require documentation and transmittal by receipt.

All documents that are presently classified "confidential" and documented will continue to be handled as in the past. Accountability will be maintained and any transfer of custody will be accomplished by means of the regular four-way classified document receipt system.

DATA FOR REDS RAPPED

Dr. Glenn T. Seaborg, of the University of California, in a recent radio interview declared that it is not desirable for the United States to give out information about atomic problems that would be useful to Russia. However, he contends that our own science is held back if things are kept secret unnecessarily and added that speculative articles and sketches are unofficial but may provide Russians with valuable information.

"ANGELS OF MERCY" ARE THESE Y-12 WOMEN—THE TOP team of the plant in the Carbide First Aid Contest. From left are Daisy Ward, Betty Pope, Sue English, Roberta McCutchen, team captain; Betty Stephens, Geneva Gracey and Gladys Dodson. Y-12 Plant Superintendent W. D. Lavers is congratulating Captain McCutchen, who is holding the team trophy awarded the top outfit in the plant. More First Aid Contest pictures on Page Four.

All Y-12ers Urged To Make Plant Hazard-Free During Observance Of Fire Prevention Week

Although the fire and safety records in Y-12 have been exceptionally good over a period of years, the cooperation of every employee in the plant area will be sought in observance of National Fire Prevention Week, set for October 7-13, by proclamation of President Harry Truman. During that week a plant-wide program of action for elimination of fire and safety hazards through better housekeeping in all sections of the plant will be stressed.

Y-12 Plant Superintendent W. D. Lavers has sounded the keynote for the observance of Fire Prevention Week through issuance of a statement to all employees. In the statement he says:

"The week of October 7-13 has been proclaimed National Fire Prevention Week by the President of the United States. During this period a special Fire Prevention Week program will be conducted in the Y-12 plant.

Committees To Plan Activities

"The Y-12 Policy Committee, the Fire, Safety and Security Coordinators Committee, Divisional and Departmental Safety Committees will plan and coordinate Fire Prevention Week activities.

"Supervision in each department will assist divisional and departmental inspection committees in eliminating fire and safety hazards and getting undesirable conditions cleaned up during this week.

"Bad housekeeping conditions and safety hazards have steadily increased during the past few months; therefore each supervisor

and employee should set Fire Prevention Week as the target date to get his building or work area cleaned up.

Year-Around Program Urged

"All employees are to be commended for contributing to the excellent fire record of this plant. Let us eliminate hazards conducive to fires and continue this record of practicing fire prevention week, not only during this week, but throughout the year."

Throughout Fire Prevention Week frequent inspections will be made and steps taken to eliminate any hazardous conditions found. Special blanks will be provided the inspection committees throughout the plant to aid them in checking hazards.

Evacuation drills for building personnel and local emergency squads are expected to be scheduled during Fire Prevention Week to keep all employees alert as to how to conduct themselves in cases of emergency.

Home Safety Also Urged

Y-12ers will be urged not only to become conscious of fire hazards in the plant during Fire Pre-

57 Stable Isotope Shipments Are Made

50 Consignments Sent To Laboratories Of AEC

Scientists in seven privately-owned laboratories throughout the United States and six different Atomic Energy Commission installations received shipments of stable isotopes from the Y-12 Isotope Research and Production Division during the month of August, divisional records show. There were 50 shipments made to the AEC installations and seven to the outside laboratories.

The University of Wisconsin at Madison received two of these consignments. It was sent 22 milligrams of Tellurium 124 and 8.5 mgs. of Tellurium 120.

Yale Gets Largest Shipment

The largest shipment of the month was one of 151 mgs. of Tin 122 to Yale University, New Haven, Conn. The University of Michigan at Ann Arbor got 50 mgs. of Calcium 44 and the University of Minnesota 10 mgs. of Potassium 40. Ohio State University at Columbus received 9 mgs. of Strontium.

The only other shipment was one of 5 mgs. of Strontium 84 to the Carnegie Institution at Washington, D. C.

Y-12ers Invited To Attend Physics Seminar Meeting

Y-12 scientific and technical personnel interested in the topic of "Nuclear Reaction of He-3 He-3 and H3-H3" are invited to attend the weekly meeting of the Oak Ridge Physics Seminar at 4 o'clock Friday afternoon, September 23. The meeting will be held in the East Lounge of the Ridge Recreation Hall.

The speaker this week will be W. M. Good, of the Oak Ridge National Laboratory Physics Division.

ITALY GETS SYNCHROTON

A powerful synchrotron for atomic research will be installed soon in the Turin, Italy, Institute of Physics. The equipment will bring Italy back into the field of atomic studies, in which it once was a world leader, says the Washington News.

M. N. Wilkerson, Naval Reservist, Called For Service

Millard N. Wilkerson, 33, a member of the Y-12 Guard Department since October, 1945, and a member of the United States Naval Reserve, was called into active service

last week. He left Y-12 and Oak Ridge last Thursday for Memphis, to report to the United States Naval Air Station in that West Tennessee city.

After reporting for duty there, he later expects to be transferred to the United States Naval Reserve Training Center with the rank of storekeeper. Wilkerson served two enlistments in the United States Navy, being a bluejacket before Pearl Harbor. At the time of the Japanese attack on that naval base, Wilkerson was a member of the crew of the U.S.S. Colorado when the battleship was in American waters for overhauling and missed the debacle in Hawaii. He later was stationed at a naval air station in Hawaii. He held the rank of chief gunner's mate on discharge, after six years' service.

"Wilkie" was around Y-12 last Wednesday in his naval uniform, preparing for termination. He lives at Lenoir City.

The following Y-12 employees were patients at the Oak Ridge Hospital last week: Charles J. Mitchell, Field Maintenance; Elizabeth S. Harris, Product Chemical; Robert G. Walker and Carl E. Day, Dept. 2618; Clyde H. Drummond and John W. Cantrell, Maintenance Shops; Ira Sharp, Property Sales; Victor Defenderer, Chemical; Claude O. Jones, Electrical Maintenance; Alfred Stockton and Burlin V. Pullin, Buildings and Grounds; and Willie C. Williams, Janitors.

Tickets For Jaycee Follies Now On Sale By Y-12ers

Several Y-12ers and their wives are members of the cast of 150 in the "follies" production to be staged Friday and Saturday night of this week at the new municipal auditorium in the high school building. The production is being staged by the Oak Ridge Junior Chamber of Commerce and the Jaycettes with proceeds going to the Jaycee scholarship fund and other civic welfare projects.

Y-12ers and members of their families in the cast include Bob Barron, Frank Zapp and Mr. and Mrs. Jim Lane. Y-12ers wishing to buy tickets in advance may obtain them from John Gregory, Leo Hemphill and Frank Zapp.

Research Services Holds First Position

Research Services held first place in the Major League attendance standings during the week ending September 16 for the second consecutive reporting period. Although the department had a perfect attendance mark for the week ending September 9, it posted an absentee mark at .3 per cent for the following week.

The Guard Department advanced from seventh to second place in the Major League with only .7 per cent of its personnel absent. Third place for the week ending September 16 was taken by Buildings and Grounds, advancing from ninth position, and reporting 1.6 per cent absenteeism.

Three Departments All Present

Only three departments in the Minor League reported all present, for the latest reporting period. They were Superintendents, Tools and Fire Departments. The second place department in the Minor League was Property Sales with an absentee record of .7 per cent. Right behind with an absentee percentage of .8 in third place was Uranium Control and Computing.

The plant-wide absentee record for the week ending September 16 was 2.7 per cent, an increase of .2 per cent over the previous week. The record, by departments, follows:

MAJOR LEAGUE More Than 50 Employees Scheduled			
Dept.	Absent Percentage	9-16-51	9-9-51
2018	0.3	1	1
2091	0.7	2	7
2014	1.6	3	9
2060	1.7	4	3
2619	1.9	5	4
2283	2.2	6	2
2142	2.4	7	8
2015	2.71	8	5
2617	2.72	9	13
2077	3.12	10	12
2282	3.14	11	6
2003	3.3	12	10
2618	3.4	13	11
2001	4.4	14	14

Group absentee percentage was 2.6 per cent, .1 per cent higher than the preceding week.

MINOR LEAGUE 15-49 Employees Scheduled			
Dept.	Absent Percentage	9-16-51	9-9-51
2200	0.0	1	1
2144	0.0	1	1
2093	0.0	1	1
2145	0.7	2	1
2739	0.8	3	9
2109	1.1	4	1
2002	1.3	5	11
2743	1.4	6	1
2005	1.6	7	4
2108	1.9	8	5
2107	2.3	9	7
2133	2.5	10	2
2064	2.9	11	3
2143	3.3	12	10
2096	3.68	13	6
2090	3.70	14	12
2046	4.8	15	1
2008	6.0	16	13

Group absentee percentage was 2.4 per cent, .3 per cent higher than the preceding week.

The plant average for the week ending September 16, 1951, was 2.7 per cent, .2 per cent higher than the preceding week.

Three Y-12ers were listed as parents of babies born recently at the Oak Ridge Hospital. They were Donald G. McAlister, Plant Engineering, boy, September 14; Willie K. Prater, Isotope Research and Production, boy, September 15; and Marion C. Gore, Electrical Maintenance, girl, September 19.

Engineers, Instrument Men Will Hold Joint Meeting

Henry Berring, educational director of the Weston Electrical Instrument Co., will speak at a joint meeting of the Oak Ridge groups of the American Institute of Electrical Engineers and the Instrument Society of America. The meeting will be held at 7:30 o'clock next Wednesday night, October 3, in the Knights of Columbus hall.

Berring will lecture on electrical indicating instruments. Transparent case instruments and cut-away samples will be used to illustrate the talk.

Have you noticed—it's getting late a lot earlier now?

C. D. Susano, of the Analytical Chemistry Division, and his family visited relatives in Uniontown, Pa., while on a recent vacation.

Congratulations to D. G. McAlister, of Plant Engineering, who is the proud papa of a six-pound, three and one-half ounce baby boy born on September 14, at the Oak Ridge Hospital. McAlister is vacationing at home this week to be on hand when the little fellow comes home from the hospital.

Charlyne Smith, of Medical, spent last week vacationing at Daytona Beach, Fla. . . . Jim Chambers is vacationing at his home in Byington this week.

Capt. D. C. Shults, of the Guard Department, has returned from a week of vacation. . . . C. S. Waldroop is on a two-week vacation.

The Material Chemistry Division welcomes Catherine Love and C. F. Bass to the roster. . . . Lots of luck is wished for William Harrill, who left the division to resume his studies at the University of Tennessee; and to Dr. W. M. Whaley who has returned to the University of Tennessee as an instructor. . . . Good luck is also wished for Dr. F. A. Vingiello, who has returned to Virginia Polytechnic Institute; and for Dr. J. G. Suark, who has returned to Marquette University in Milwaukee, Wis. . . .

H. M. McLeod and his family are on a week's vacation tour of the New England states. The Cafeteria Department extends get-well wishes to Bertha Jenkins and Geneva Caldwell, who are on the sick list. . . . Wilhelmina McClatchey vacationed at Knoxville, last week.

C. C. Butler, of the Fire Department, spent his week of vacation at home in Oliver Springs, doing some farming and fishing in his spare time.

Dorothy Conner, of Plant Records, and LeRoy, her husband, attended the Carson Newman-Middle Tennessee College football game in Murfreesboro on a recent Saturday. . . . The department wishes a speedy recovery for Phyllis Finneran, who underwent a recent appendectomy in the Oak Ridge Hospital.

The Stores Department extends get-well wishes to Eva Gilliland and Ira Sharp. . . . E. A. Guettner has returned from a week of vacation. . . . Bart Slover has been on a two-week vacation. . . . Lucia Padgett had her mother from Easley, S. C., as a week-end guest. . . . Betty Leonard is spending a few days in Johnson City, while on vacation this week.

Doris Thomas, of Planning and Estimating, vacationed at home in Oak Ridge, last week. . . . W. T. McNamara spent all his time over at the TVA and I Fair in Knoxville, while on a week's vacation. . . . The department welcomes W. G. Lambert to the roster.

Y-12ers always know when W. K. (Woody) Palmer, the Paymaster chap, has been vacationing—he always sends back such interesting picture postal cards. The latest, from Texarkana, are lulus, really collector's items.

Bill Prater, of the Isotope Research and Production Division, is the proud papa of a baby girl born on September 15, at the Oak Ridge Hospital, and weighing about seven pounds—they named her Elaine.

The authenticity of this here now yarn probably will be questioned by one and all and sundry concerned. Anyhow this is how we heard it.

Seems as how the eternal dispute arose on the merits of fishing and golfing—of which there are many adicts of both around Y-12. So a pair of fishermen challenged a pair of golfers, the story goes, as the wrangle raged in the Maintenance Shops. George Ferrell (of the fishing Ferrells and Charlie Pratt threw the gauntlet to Floyd Ludwig

and K. M. Adkins, the links luminaries. So the story goes (one side or the other may deny it) George strides to the first tee and whams one 250 yards right down the middle—just like casting for trout. From then on it was too bad for the golfers, although Floyd did card a one under par. Maybe it's up to Ludwig and Adkins to invade the fishing holes of Ferrell and Pratt now—and pull out some prize-winning specimens of the finny tribe. Maybe this is a good project for Evan (The Whole Truth) Means to promote in his wildlife column, for there ain't anything wilder than an inveterate fisherman or golfer.

The Property Department welcomes Jeanette Crews to its roster.

The department is missing Olyne Kappelmann since her resignation to be a full time lady of leisure.

Fred Kappelmann, of the Isotope Research and Production Division, and Olyne took off last week end for a week's vacation at Jacksonville, Fla.

The folks in the Manufacturing Office hope that R. J. Barron and R. R. Tippy are able to return to work this week after their bout with the cold virus.

W. A. Parks, of Buildings and Grounds, and his wife, Nell Parks, of the Superintendents Department, are spending some time in Kentucky, while on a two-week vacation. . . . E. A. Cobble and his wife, Lillie, of Transportation, spent last week vacationing at home in Oak Ridge.

Ruth Butties, of Uranium Control and Computing, was in Atlanta last week. . . . Betty McDonough and Elizabeth Mitchell went down to Atlanta for a week end.

Elizabeth Wilson is visiting her sister in Norfolk, Va., while on vacation this week.

The Security Department welcomes Kay Collins and Thelma E. Carnes to the department. . . . Juanita Reed, Ruth Williams, of ANP, Jim Young, of the Dow Chemical Co., in Y-12, and Sarah Purnell motored to Indian Town Gap, Pa., over the week end.

Rosel Davis, of the Assay Laboratory, underwent a tonsillectomy in a Knoxville hospital last Saturday—the department wishes a speedy recovery for her. . . . Eula Mae Hayes spent some time in Detroit, Mich., while on a week of vacation. . . . Annie Rogers and Marcelle Ferguson motored to their respective homes in South Carolina over the week end. . . . Ozell Pass spent the week end at her home in Bonny Blue, Va. . . . Jo Wright, a former employee in the department, and her husband announce the birth of a son on September 15, at the Oak Ridge Hospital—the baby is their second boy—the department extends congratulations to the proud parents.

The General Electric employees in Y-12 extend hearty congratulations to Bob Boggild at the birth of a baby girl on September 18 at the Oak Ridge Hospital. . . . The company personnel welcomes William Terry to its roster.

Opal Griffin, of the Personnel Department, with her father, E. I. Griffin, of the Stores Department, and mother, are spending a two-week vacation in Georgia—they also plan to go on into Florida for some deep sea fishing.

V. W. Arms, of Research Services, has returned from a two-week vacation which he, with his wife and daughter, spent with Mrs. Arms' father, T. D. Hurst, in Roanoke Rapids, N. C. The Hurst family had a home-coming celebration at which three generations were present.

M. M. Dickens, of Dept. 2618, has returned from a week's vacation. . . . H. G. Jenkins has moved his family to the fair city of Oak Ridge from Morristown. . . . John Sewell has moved his family from Middlesboro, Ky., to Oak Ridge. . . . Congratulations to the W. B.

'Chemistry Week' Set By Section Of ACS

Chemistry Week is being observed this week, from September 24 through September 28, by the East Tennessee Section of the American Chemical Society. A number of Carbide employees from Y-12, K-25 and the Oak Ridge National Laboratory will have active parts in the two-part program.

One part of the program will be conducted tours through the American Museum of Atomic Energy in Oak Ridge by science groups and clubs of high school or university level. The groups will be guided by members of the East Tennessee Section and any group or club wanting to take advantage of the ACS offer is asked to communicate with Robert McIlhenny, home address Cambridge Hall, Oak Ridge, telephone 5-0760; or at Bldg. 9212, Y-12 plant, telephone 7171. The museum tours will be made between 9 a. m. and 3:30 p. m.

Chemistry Week will be observed in Knoxville with an "open house" at the Volunteer Portland Cement Co., which will be thrown open for inspection by the public during the period.

C. E. Harrison Has Tickets For Navy Band Performance

C. F. Harrison, Bldg. 9731, telephone 7679, has tickets for Y-12ers desiring to attend the concerts of the United States Navy Band to be given Sunday, September 30, in the new municipal auditorium in the high school building on Providence Road. The band will appear in matinee and night performances, beginning at 2 p. m. and 8 p. m. Matinee prices are \$1.20 for adults and 60 cents for children while the night prices are \$1.80 and \$1.20 respectively.

The band is being brought to Oak Ridge by the Veterans of Foreign Wars Post No. 6351. The band will receive 70 per cent of the receipts and the remaining 30 per cent will go to the support of orphans' homes sponsored by the V. F. W.

Another Young Y-12er Joins United States Air Forces

Another young Y-12er left the plant last week to don the uniform of the United States Air Forces. He is Lou H. Wright, 18, who has been an employee in the Buildings and Grounds Department since May of this year.

Wright enlisted in the Air Force recently at his home in Harriman and was scheduled to leave Monday of this week for Lackland Field, in Texas.

Wright is a graduate of Oliver Springs High School, where he played with the undefeated football team of that school last year. His mother, Mrs. Mattie B. Wright, also is a Y-12 employee, working in the Laundry Department.

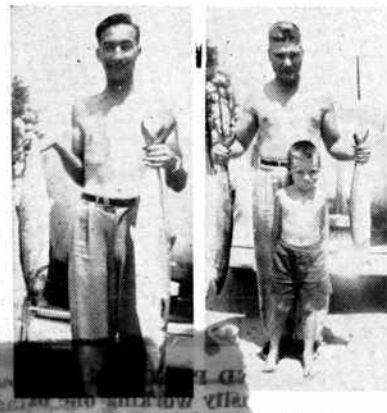

Thompsons, who are the proud parents of a baby daughter, born on September 9, weighing five pounds, nine ounces. . . . C. R. McCabe spent his vacation in Louisville Ky., and at home in Harriman. . . . R. L. Luttrell spent a recent week end visiting friends in Roane County. . . . Sympathy is extended to E. Cook on the recent death of a cousin at Smoke Junction, Tenn.

Desma Hutchison, of Personnel, is visiting a friend in Detroit, Mich., while on vacation this week.

Like that radio funnyman on The Grand Ol' Opry says—"It ain't so hot these nights, is it?"

Worry and a rocking chair have these two things in common: they give you something to do, but don't get you very far.

ORPHANS BEAT BLDG. 9212 FOR TOURNEY TITLE

Champs Get Win In Finals; Have No Losses

Successful Season To End With Playoff Tilts Scheduled This Week

The "po' lil" Orphans, champions of the first half of the regular season in the Y-12 Plant Softball League and runners up in the second stanza, banged out a decisive 12 to 5 victory over the Bldg. 9212 aggregation last Wednesday night at Midtown Park to win the double elimination tournament of the loop. The losing team in the tournament finals had won the second half title.

The Orphans established themselves as the class of the tournament by winning all their games, although having a close call in their opening clash when they eked out a 9 to 8 victory over the Dashers.

Playoff Set This Week

Undaunted by the defeat handed them last week, the Bldg. 9212 outfit will come back gunning the first part of this week in a playoff series with the Orphans for the regular season's championship. This series is scheduled to start Monday night at Midtown with a single game and a double header Tuesday if needed to decide the title.

In racking up their victory last Wednesday, the Orphans ran pretty close to form as they had taken two out of three games between the rivals during the regular season.

The final contest saw Bldg. 9212 get away to a two-run lead in the top of the first, but the Orphans soon caught up and scored in every inning except the third to clinch the victory behind the four-hit pitching of Ed Hawkins. Jay Holzknicht with three for three and McGill with two for two led the 11-hit attack on Mustin, Bldg. 9212 hurler.

Bldg. 9212 Gamely Rallies

After being eliminated from the top bracket of the tournament by the Sparks to the tune of 10 to 7, Bldg. 9212 gamely rallied to take two games in the lower bracket to advance to the championship battle. In these two wins Bldg. 9212 beat the Duds by 6 to 5 and gained revenge on the Sparks with a 21 to 3 thumping. The Sparks dropped from the top bracket by the Orphans, gained a respite in the lower pairings by trimming the Grocers 4 to 3.

Those games in the semi-finals of the lower bracket were real dillies. The Sparks had to rally with all of their four runs in the bottom of the seventh to trim the Grocers. After a walk had forced in one run in that frame and the bases still loaded Kimbro exploded a long triple to score the needed three runs. In their clash with the Duds, Bldg. 9212 also had to go right down to the wire to win in overtime after the Duds had gone ahead with four runs in the fifth, aided by Livingston's homer.

Sportsmanship Is High

The tournament and playoff closes out the 1951 season for the circuit, one of the most successful in the history of the plant. Although competition was keen and spirited, formal protests were at a minimum. The sportsmanship of

Two Y-12ers Clash For City Crown

Two Y-12 golfers, Carl Door and John Shugart, will meet in the finals of the championship round for the Oak Ridge city golf championship next Saturday. E. G. Richardson, of Y-12, took first place in the fifth flight of this tournament.

Varsity Golfers Of Y-12 Sweep Inter-Company Tilts For Crown

The Y-12 varsity golf team made a runaway of it in the final tilts of the inter-company matches Sunday as the teesters turned in torrid performances to smother their nearest rivals from Oak Ridge National Laboratory. In the last clashes the Y-12ers scored 92 points to ORNL's 162½ to walk away with the beautiful trophy.

Hurricanes Bluster Into C League Lead; Hasse's Scores Tops

The Hurricanes blew their way into the lead in the C League bowlers last Wednesday night with a three-point win over the Short Circuits and the team and its members posted high scores of the night in several brackets. In other matches the Moles topped the Thin Pins, the Hooks licked the Guards and the Hornets stung the Orphans, each by a three-point margin.

Haase, of the Hurricanes, monopolized individual scoring honors, his 200 scratch game being best of the night; as was his 246 handicap game. He had to share scratch series honors with Reinhardt, of the Hooks, at 481, but the Hurricane man went on with the top score of 619 in handicap series.

The Hurricanes also had three of the top scoring titles in team play, a 809 scratch game, 993 handicap game and 2270 scratch series. The Hooks came through with a 1821 handicap series.

League standing follows:

Team	W	L
Hurricanes	7	1
Thin Pins	5	3
Moles	5	3
Orphans	4	4
Guards	3	5
Hooks	3	5
Hornets	3	5
Short Circuits	2	6

Y-12 To Enter Pistol Team In Sportsmen's Group Loop

Arrangements are being made for Y-12 to have a squad entered in a .22 calibre pistol league being formed by the Oak Ridge Sportsmen's Association. All Y-12ers interested in joining such a league are asked to attend, or be represented at, an organizational meeting to be held at 7 o'clock tonight, September 26, at the Sportsmen's Association clubhouse on the Turnpike west of Oak Ridge.

Y-12ers desiring further information on the proposed league are asked to communicate with Capt. M. L. Woodward at the Y-12 Guard Department, telephone 7272. Captain Woodward points out that each group in the league would have five men firing at each match and that the firing will be on the association's indoor 75-foot range, which has the approval of the National Revolver Association. Six teams or more are expected to join the league and firing will be on a handicap basis.

every player and team was beyond reproach and was particularly evidenced by the few forfeits, even by teams far down in the standings who had nothing to gain except the fun of playing when they showed up.

Line scores of tournament games last week follow:

Team	R	H	E
Grocers	001 002 0—	3	8 2
Sparks	000 000 4—	4	7 2
Grocers: Doss and Walker.			
Maness and Lanier.			
Duds	001 040 00—	5	6 3
Bldg. 9212	000 023 01—	6	10 3

Y-12ers Forge To Top Spots In Golf Meet

Plant Player Assured Of Final Berth In Championship Grind

A whole host of Y-12 golfers forged to at least semi-final matches in the all-Carbine golf tournament last week, three placing in the next to last round in the championship flight. Finals in the tournament are scheduled to be played by next Sunday, September 30.

Y-12er Sure For Finals

In the semi-final round of the championship flight Bill Bauman is scheduled to meet Sampson, of Oak Ridge National Laboratory and John Shugart and Carl Dorr, both Y-12ers, will meet in the other match, insuring at least one Y-12er in the finals.

Arnold Tiller is scheduled to meet Floyd Ludwig, both Y-12ers, in the finals of the first flight.

In the second flight semi-finals Elmer Olson, Y-12; will meet Tabor, K-25. The winner meets McAlpine, ORNL, in the finals.

Jack Spears, Y-12; will play Phil Rueff, ORNL and former Y-12er, in the third flight finals.

J. D. Brown and Dave Crouse, both of Y-12, meet in the fourth flight semi-finals with the winner playing Boss, K-25.

Fifth Flight Dominated

Y-12ers dominated the entire fifth flight finals with Joe Dunlap besting C. E. Harris for the title. Ward Foster and K. D. Brown were the other semi-finalists. Both are Y-12ers.

Harold Ratjen, of Y-12, plays Phillippi, K-25, in the seventh flight finals. Nelson Tibbatts, Y-12, meets Dr. C. E. Larson, ORNL, for the eighth flight crown.

Bill Matthews, of Y-12, meets Gissell, ORNL, in the ninth flight semi-finals with the winner playing Bowen, K-25, for the title.

Teeter Boyd, Y-12, will play the winner of a semi-final match between Stubbs and Delaney, both of K-25, in the 11th flight finals.

Don Matlock, Y-12, and Ed Bagley, ORNL and former Y-12er, meet for the 12th flight trophy and Gentry Underwood, Y-12, plays McQuiken, K-25, for the 13th flight honors.

Easy Aces, Strikers Deadlocked For Top In E Bowling Loop

The Easy Aces and Strikers were deadlocked for first place in the new E League of plant bowlers after competition last Thursday night, each taking four-point wins from the Three Ds and Mezzanine Maulers respectively. The Gophers and Rusty Five split even with two points each.

Horton, of the Easy Aces, topped the handicap game scorers with 243 and also was high with a 484 scratch series and 622 handicap series. Skirtnansky rolled a 209 scratch game for tops. The Easy Aces took most of the team scoring honors with a 770 scratch game, 1025 handicap game and 2824 handicap series. The Rusty Five got the best scratch series of 2158.

Two more teams are being organized to bring the league roster up to eight. Efforts will be made to have the two new teams catch up on their league schedule so that all will be bowling on an even basis after a few weeks more.

League standing follows:

Team	W	L
Easy Aces	7	1
Strikers	7	1
Gophers	3	5
Rusty Five	3	5
Three Ds	2	6
Mezzanine Maulers	1	7

Bums Batter One-91, Post Record Scores In B Loop Bowling

The Wolves lost their first point of the season in B Bowling League competition last week as the Comets managed to bag one while the league leaders were taking three. The big blast of the night, however, came from the Bums, which walloped the One-91 keggers for four points and set high score for the night in doing so. Other whitewash wins were posted by the Cubs over the Rebels and the All Stars over the Wasps. Other three-point victories were scored by the Bumpers over the Rippers and Bldg. 9211 over the Tigers.

The Bums posted a 916 scratch game, boosted to 1095 with handicap, the latter being the season's high. The team also had a 2412 scratch series and 2949 handicap series.

Ernie Cobble, of the Bumpers, took full charge of the individual scoring honors of the night with a 215 scratch game, 249 handicap game, 594 scratch series and 696 handicap series, the latter being tops for the season.

League standing follows:

Team	W	L
Wolves	11	1
Cubs	10	2
Comets	8	4
Bumpers	8	4
Bldg. 9211	7	5
All Stars	7	5
Bums	6	6
One-91	5	7
Rippers	5	7
Tigers	4	8
Wasps	1	11
Rebels	0	12

Varsity Keglers Of Y-12 Smothered By Legionnaires

The Y-12 men's varsity bowling team had a bad night at the Oak Terrace alleys Monday, September 17, dropping all four points to the American Legion pinmen. Only one Y-12 bowler, Len Hart, neared the 500 series mark, Hart posting a 499 on games of 151, 162 and 186. Other Y-12 scores were Ernie Cobble 179, 157, 144—480; Jack Spears 156, 163, 150—469; Frank Gragg 138, 165, 161—464; and Roy Roberts 145, 175, 134—454.

Total pinnage was 2439 for the Legionnaires and 2366 for Y-12. The Y-12ers scored games of 789, 829 and 821.

pital. The East Tennessee Heart Association also is a Chest beneficiary to provide consultation for indigent patients. Another is the Oak Ridge Safety Council.

One Gift Serves All

In this entire comprehensive program of backing for worthy agencies the Community Chest provides a method by which just one unified gift serves many purposes.

In the past Y-12ers have established praiseworthy records for their speedy and generous response to the appeals of the Community Chest and the plant-wide committee in charge of the campaign in the plant is confident that this year will be no exception. The committee is headed by Y-12 Plant Superintendent W. D. Lavers as chairman; Paschal Hamrick, Personnel, co-chairman; with other members being W. C. Davis and W. K. Palmer, Manufacturing Office; Carl Roddy, Engineering; W. S. Herron, Chemical; and Nelson Tibbatts, Maintenance.

By the time this edition of The Bulletin is distributed, pledge cards will be in the hands of every Y-12er. The cards will bear the name and payroll number of every employee and bear space for the amount to be contributed and the method of deduction, if the gift is not in cash, desired by the employee.

Deductions Made Easier

Deductions by weekly paid personnel may be made over a period of 10 weeks, beginning the week of October 14, with a minimum of 25 cents per week to be taken out. Monthly paid employees may have their contributions taken out for the months of October, November and December, if they choose.

A speedy return of the pledge card to one of the plant committeemen is urged—even if no gift is made. This will enable the campaign to be quickly wrapped up and give Y-12 another chance to "git thar fustest with the mostest."

Y-12ers Urged To Make Plant Free Of Hazards

Continued from Page 1

vention Week but also to check their own homes for conditions that might result in a damaging fire.

In the proclamation by President Truman it is pointed out that during the past year preventable fires have brought death to at least 10,000 persons and permanent disability or painful injuries to thousands of others. Natural and created resources worth nearly \$1,000,000,000 are destroyed by fire in the country every year and the President cites these figures in urging every man, woman and child in the nation to cooperate in the national effort to conserve manpower, productive facilities and material resources.

Although Y-12 has fortunately been free of major fires or great damage for several years—this record has only been attained through constant alertness and observance of fire and safety regulations. In such a plant as this there always is a chance of a bad fire—but these chances can be minimized through carrying out the Fire Prevention Week program thoroughly.

Four Y-12ers Teach Classes In Squadron Piloting Course

Four Y-12 members of the Oak Ridge Power Squadron are listed among the seven instructors in the fall piloting classes to be held in Oak Ridge and Knoxville. The Y-12ers and their topics are Dr. E. D. Shipley, Rules of the Road; G. J. Angele, Seamanship; George Lockhart, the Compass, and William Rathkamp, Aids to Navigation.

The classes are held at 7:30 o'clock every Tuesday night in Room 225-A of the new Oak Ridge High School. The Knoxville classes are held on Thursday nights. Other topics than those taught by Y-12ers include equipment, safety at sea, charts and piloting and manners and customs.

coffee concerts also will be offered, presenting local musical talent in a friendly atmosphere.

The added attractions on the program include the New York String Quartet, Leonard Shure, pianist; and Frankel and Ryder, dance-duo.

The orchestra and solo recitals will be held in the auditorium of the new Oak Ridge High School.

ORCMA Arranges Attractive Program For Coming Season

Music lovers in Y-12 will be well rewarded for membership in the Oak Ridge Civic Music Association this season as the organization has planned a program featuring a new series of concert artists which have been added to the regular subscription activities at no extra cost. The memberships are priced at \$7.50 per seat and Y-12ers interested in joining the ORCMA or desiring more information are asked to communicate with A. D. Callihan, telephone 7447, or Fred Howard, telephone 7952.

The ORCMA program this season will include four concerts by the Oak Ridge Symphony Orchestra, conducted by Waldo Cohn, with guest appearances by David Van Vactor, conductor of the Knoxville Symphony Orchestra; William Starr, violinist; Yaltah Menuhin, pianist; Michael Mann, violinist; and Blanche Renard, pianist. Concerts by the Oak Ridge Community Chorus and the monthly

At left is the Maintenance Shops team busily working one of the contest problems as a judge looks on. In the circle are W. K. Forrester, team captain; J. B. Gordon, W. J. Fowler, R. H. Angel, W. A. Kirk and W. W. Chilcote. Howard McCraw, alternate on the team, was standing out of the way when the action picture was taken. At right is the Buildings and Grounds team relaxing after working a problem. From left are R. Moseley, team captain; L. P. Coleman, J. Johnson, C. F. Fuqua, J. L. Brown, J. Gallaher and W. J. Johnson.

New Hospital Plan Enrollment Pushed

Continued from Page 1

participate in the plan without health questions or medical examination if they enroll now. However, a physical examination at their own expense will be required of all employees enrolling later.

Two months of Company service is required before an employee is eligible to enroll in the new hospitalization benefit plan. After that two-month period expires an employee may enroll at any time within 30 days without a medical examination with the coverage becoming effective on the first day of the month following completion of the two months of service, providing the enrollment is made during the 30-day period.

If an employee is not actively at work on the date the coverage would otherwise become effective the coverage will be effective on the return to active work. In the event the employee is not actively at work on the original effective day of coverage, eligible dependents, if they are free from disability, still will be insured.

Eligible Dependents Described

An eligible dependent is described as a spouse (husband or wife), unmarried children between the age of 14 days and 19 years, or both spouse or children.

Where a husband and wife, without children, both are employed in Y-12, both will be required to enroll for the employee only benefits. If there are children in the family and both parents are working one parent may take out employee and dependent coverage.

Premiums for the new hospitalization plan will be deducted in advance for both the months of October and November. For weekly and hourly roll employees, two deductions will be made during the month of October, while monthly paid employees will have premiums for both months deducted from October pay checks. There will be no deduction from September pay checks as premiums were paid in advance.

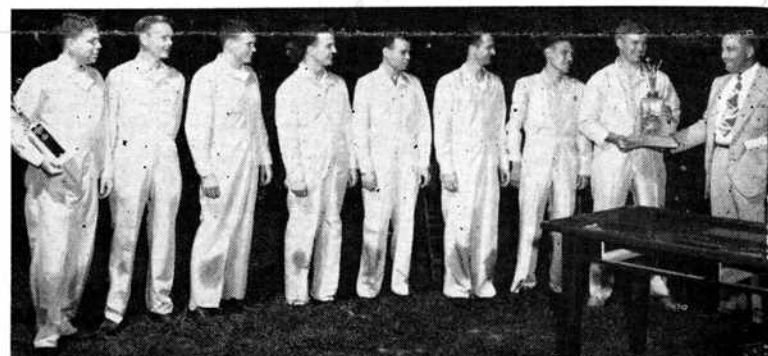

Representatives of the Connecticut General Life Insurance Co. are to confer with James R. Whitcomb, of the Y-12 Insurance Office this week. At this time all features of the coverage will be explained by the insurance company representatives, who also will answer questions by Y-12ers on the plan.

Although 75 per cent of eligible employees in the plant must enroll in the new plan before it is effective, little trouble is anticipated in obtaining the needed number of participants, as about 97 per cent of employees in Y-12 now have hospitalization coverage.

When the enrollment cards are distributed any employee not desiring to join the benefit plan at this time is asked to sign a waiver card signifying they do not want to enroll at this time. Signing such cards, however, does not make an employee ineligible to enroll in the plan at a later date.

TOP OFFICIALS OF THE COMPANY LOOK OVER THE trophies awarded at the Company First Aid Meet. From left are John Murray, Paducah Plant Superintendent; Dr. C. E. Larson, Director of the Oak Ridge National Laboratory; W. D. Lavers, Y-12 Plant Superintendent; A. P. Huber, K-25 Plant Superintendent; Clark E. Center, General Manager of Carbide units in Oak Ridge and Paducah; and W. B. Humes, Superintendent of Production at K-25 and Paducah.

DARK HORSES—AND THE ONLY TEAM ENTERED BY THE Paducah Carbide Plant in the Company First Aid Contest—are shown here receiving the grand prize for the top team of all in the event. At far right, Carbide General Manager Clark E. Center is presenting the big trophy to M. L. Sanders, team captain. From Sanders' right across the line are J. A. Hausman, B. L. Barriger, B. E. Ragland, R. E. Brust, R. L. Nelson, R. W. Langston and J. M. Walker, holding the other award given the team as being the "best in the plant."

Three Teams Tied For W Loop Lead; Women Score Well

The Y-12 plant keglettes shifted into high gear last Thursday night and posted several seasonal high scores as the W League rolled its second round of play. The Kemps, Cracker Jax and Woes were in a tie for first place, the Kemps winning two games from the Make Ups, and the Cracker Jax. Woes and Mix Ups winning three, the losers being the Controllers, Hi Balls and Strickettes, the latter two outfits having yet to win a game.

Mavis Koons, of the Kemps, topped the single game scorers for the night with a 180 scratch and 218 handicap, the latter being high for the season. Mary Ballard, of the Cracker Jax, rolled a 454 scratch series and then posted a 571 handicap series for tops of the season.

In team scoring the Kemps banged out a 736 scratch game, boosted to 953 with handicap, and went on to grab a 2059 scratch

Rides Wanted And Offered

Ride Wanted—From intersection of Keith Ave. and Western Ave., Knoxville, straight day shift. R. S. Hickey, plant telephone 7218, home telephone 2-5923.

Riders Wanted—From Turnpike at Central Terminal or Snow White diner to Y-12 East Portal, straight day shift. C. E. Jarnigan, plant telephone 7956, home telephone 5-5488.

Ride Wanted—From Central Ave., Knoxville, swing shift. F. L. Alexander, telephone 7335.

series. The Woes horned into the act with a 2720 handicap series. All of these scores were best of the season.

League standing follows:

Team	W	L
Kemps	5	1
Cracker Jax	5	1
Woes	5	1
Mix Ups	4	2
Controllers	3	3
Make Ups	2	4
Strickettes	0	6
Hi Balls	0	6
